## The War.

### British Garrison Besieged

#### METHUEN MARCHES TO THEIR ASSISTANCE

#### Strathcona Corps May be made Permanent

#### Boers in Germany must become Germans

Winnipeg, Nov. 16, '00.

The Boers who took to German territory in Southwest Africa must become German subjects.

A report from Col. Otter, dated Faberiken, Sept. 25th, refers to the unmarked graves of Canadian officers in South Africa.

A British garrison at Schweizerkuck in the Western Transvaal is besieged by 1,250 Boers. Lord Methuen has gone to their relief.

It is believed the Canadian minister of militia is arranging for the permanent of Strathcona's Horse as a mounted regiment in Manitoba and the Territories.

London, Nov. 14th: "The Portuguese government," says the Lisbon correspondent of the Mail, "has deprived Herr Potts, the Transvaal consul at Lorenzo Marques, of his authority as Portuguese representative."

## War in China

#### Russians Defeat Chinese—Killing 200

#### 600/90 Chinese in Tien Tsin

#### Chinese Empress Attacked by a Lunatic

#### Reported Dissension Among Allies

#### Native Christians Threatened

Hong Kong, Nov. 15th: Placards are posted at Fat Shaw, saying that native Christians must repent or 20 of their chapels will be burned and the converts killed.

Peking, Nov. 14th: A Russian column of 330 men with four guns, which left here Nov. 4th, returned on Nov. 9th, having engaged the Chinese in Hsia Tsang. The Russians fought 2,000 Chinese troops dispersing them and killing 200. The Russians had no casualties.

The population of Tien Tsin now reaches 600,000 Chinese and the allies are strengthening the garrison against any possible surprise. It is supposed that one-third of the inhabitants are Boers.

Berlin, Nov. 14th: The Frankfurter Zeitung prints a despatch from China saying that discord prevails in Peking between the military and the diplomats and that the latter are also at loggerheads among themselves. Count von Waldersee cables from Peking, on Nov. 11th, that the former Chinese garrison of Peking is between Huia Hui and Kaitu Hui. He sent a German expedition against it as it is likely the Chinese may attack the Catholic priests in this district.

Yokohama, Nov. 2nd, via Victoria, B. C., Nov. 14th: The chief sensation of the week has been the attack by a lunatic upon the carriage of the Empress as the latter was being escorted through the streets of Tokio. The incident was notable only from the extraordinary character of the weapons used and also from the additional evidence it furnished if anything were needed to testify to the great reverence and affection in which Her Majesty is held by her people. The mere rumor of the attack before the actual facts were known, caused a tremendous amount of excitement in the city, out of all proportion to the importance of the affair. The crazy assailant brooded over his lowly birth until he imagined himself of imperial lineage.

The vote of the senate stood 175 to 34. Thirty-four were opposed to the innovation. They said the main reason they had for so doing was a sentimental one, that they believed the sphere of woman was in the household and not in the forum.

New York, Nov. 14th: (Vicar-General John E. Berry, of St. John's church, Concord, N. P., was instantly killed this afternoon by a cable car. White, ex-quartermaster-general of the Michigan national guards, who is a fugitive from justice because of state military scandals, will arrive in Lansing Thursday morning prepared to go before the court and give bail for his appearance when wanted. For months relatives had been working incessantly in his behalf. After raising money to refund the state they turned their attention to getting bondsmen for him. After approaching many business men and former friends and meeting with many rebuffs it was announced last night they had succeeded. White said he had been in Canada.

Lincoln, Neb., Nov. 15th: Authoritative announcement has been made that William J. Bryan is going to stay in politics. Mr. Bryan himself is responsible for this statement as to his future intentions. Since his second defeat for the presidency he has been pictured as nursing a remarkable variety of ambitions. He has been credited with an intention of removing to Texas, where his neighbors, at least, would be much more in harmony with his political theories than those whom he now possesses in Lincoln. Others have it that he would take exclusively to literature and book writing, while the career of a minister of the Presbyterian church has been predicted for him. Most of these stories have found their way into the newspapers until Bryan has seen that it is necessary for him to speak. "I intend to stay in politics," he said to-day, "and oppose the policies of the republican party. For the past four years I have been as active as I know how in fighting the republicans both by speech and pen and I have not the least notion of changing my methods. What I have done in the past I will do in the future."

## MR. BENNETT'S INTERVIEW.

In an alleged interview with Mr. Bennett, appearing in the Calgary Herald of the 9th, the conservative candidate is reported as explaining his defeat by saying: "During the last hours of the campaign Mr. Oliver's friends worked the cry against Calgary for all it was worth. They urged on every voter that if Mr. Oliver was defeated it was good-bye to Edmonton's chances for being the capital of the future province. The jealousy of Edmonton against Calgary, particularly after the old timers is almost a cancer in the north." Later on Mr. Bennett is made to attribute his defeat "to the cry raised in the north against the south, the work done by government officials among the Gaiians and other foreign settlers, the work of the scrip commissioners among the half-breeds, the free use of money, etc." Many things may be excused in the utterances of one who is still suffering from the sting of defeat, but it is to be hoped that Mr. Bennett, though defeated, retains sufficient honor and honesty to not assume responsibility for the statements credited to him. These statements, one and all are so unutterably false and so despicable low that they are branded as the product of a paper which has jumped so long that all sense of decency is lost to it.

## POLITICAL INDEPENDENCE

I have always maintained that we have too much partyism and not enough of patriotism in this country. If the partyism were confined to the active politicians it would be excusable, but the trouble is that it extends to the people of all ranks, and blinds them to the virtues and the faults of governments, which, after all, is the only thing that should interest the citizen. He should not allow himself to be led about by any man or any body of men calling themselves leaders, with his eyes shut to their shortcomings and his ears always open to drink in all that he can hear that is bad about those who oppose them. In this country politics, like religion, has come to be too much a matter of heredity. It is true there are signs of a change, and the body of independent is growing, but it is yet very small compared with the hide-bound partisans. When the independents become strong enough to decide elections then and then only may we expect to see the parties held in check, and governments changed as often as they deserve punishment. It is a great wrong to believe that all the good is in the one party and all the bad is in the other; there is good and bad in both. Sometimes the good comes to the surface and sometimes the bad obtains the upperhand, and the elector to perform the duty he owes his country, should hold himself free to judge in an impartial way between the good and the bad, and to vote accordingly.

The Hamilton Herald sums up and summarizes on the political situation as follows: The principal leaders of the conservative party were among the political stars yesterday—Sir Charles Tupper, Hon. George E. Foster, Hon. Hugh John Macdonald, Sir Adolphe Caron and Hon. W. H. Montague. It will be necessary to find a seat for Mr. Foster, for his services in the house are absolutely indispensable to his party. If Sir Charles is to retain the conservative leadership he will, of course, be provided for also. But it is doubtful whether any conservative member will resign to make room for Dr. Montague, and as for poor Sir Adolphe he may be set down as politically dead. Hugh John Macdonald would not be much acquisition to the debating strength of his party, but if he is to succeed Tupper as leader it will be necessary to get him seated in the new house. The conservative leadership is certain to be a subject of warm discussion in the near future, if not immediately. It would not be surprising to hear that Sir Charles Tupper had relinquished that he had done for his party and thinking all that could reasonably be expected of him, and that having reached the age of 80, he has earned the privilege of retiring from active political life. However, the old man is still vigorous in body and mind, and he may cherish a hope that he will yet lead the embattled Tories to victory. Whatever his wishes may be, they are likely to be respected by his supporters.

It is rumored that Sir Richard Cartwright will go to England as high-commissioner.

In a recent speech Sir Michael Hicks-Beach, chancellor of the exchequer, said that while part of the cost of the war must be borne by the Transvaal, it would ruin that country's future to levy upon its whole sum and that the British taxpayer must bear a large share of the expense.

## THE YALE-CARIBOO ELECTION.

The Kamloops Sentinel of the 9th, says Mr. Galliber, the liberal candidate started on his tour on the 8th, and will speak in Siccan City, Silverton, New Denver and Nakusp, reaching Revelstoke on Tuesday. On Monday evening he will hold a meeting at Golden where they will hold a meeting. On Tuesday evening they will speak at Revelstoke, and then the two will take a trip down the main line as far as Agassiz, speaking at Kamloops and other important points on the way. The date for his mainline tour will be decided upon when Mr. Galliber reaches Revelstoke. In the meanwhile, East Kootenay is not being neglected. Mr. S. S. Taylor, of C. starts for the Crow's Nest at the end of the week, and will meet Mr. A. L. Sifton, of Calgary, a brother of the minister, and the two will speak in all the principal towns of that district, reaching Nelson on the 15th. Messrs. McNeill and Goodwin, of Rossland, are now on the warpath down there, and Mr. James Wilks, the labor man, started after them the other day. So there will be a hot time in East Kootenay. Your correspondent is informed on the best authority that the conservatives are going to bring in Nicholas Flood Davis, and will get him to stump the Kootenays.

## ALLIES CANNOT AGREE.

A commissariat, consisting of the senior staff officer of the forces of each power taking part in the Chinese campaign, is proceeding to Shan Hai Kuan (on the Gulf of Ling Tung, in order to smooth the friction between the allied commanders regarding the place to be selected for occupation by their respective forces. "Advices from Tien Tsin," says the Shanghai correspondent of the Times, wiring yesterday, "show that confusion, disorganization, and absence of security are the chief characteristics of the allied occupation."

The steamer that was bearing ex-President Kruger to Holland was due at Suva on Sunday, but had not arrived there on Monday.

Ex-Premier Turner, of British Columbia, leaves for London, Eng., to act there in the capacity of commissioner for the province. London, Nov. 13.—Under date of November 12 Lord Roberts telegraphs the war department as follows: Rundle reports skirmishes with small parties of Boers in the Harrismith, Reitz and Vrede districts. The commandoes seem to be acting independently and with no object except to give as much annoyance as possible to the British. Our casualties in these skirmishes were two killed and seven wounded. Douglas arrived at Ventersdorp Nov. 11, from Zeirust, capturing during the march twenty-one prisoners and a quantity of cattle and sheep. Ventersdorp, which has been a depot of supplies for the Boers, will be cleared out.

Canada will shed few tears over the defeat of William Jennings Bryan. An admiring recognition of his great gifts and upright life implies no approbation of his appeals to the British-living elements of the United States. His defeat must tend to take John Bull down from his old place as the bogey man of United States politics, and to that extent will promote a good understanding between the republic and the empire.—Toronto Telegram.

The laundrymen and laundresses of New York have declared war against Chinese, which they say, will end only in 1902, when congress passes a new law excluding the Mongolian. The candidates for office are buttonholed and made to place themselves on record as regards the Chinese question. A candidate who is non-committal will not get the vote of a landman or husband of a laundress—black or white. The rumor has gone forth that congress will not pass an exclusion act two years from now, when the present law expires. This would mean that new hordes of laundrymen would come in and threaten home industries.

Canada will shed few tears over the defeat of William Jennings Bryan. An admiring recognition of his great gifts and upright life implies no approbation of his appeals to the British-living elements of the United States. His defeat must tend to take John Bull down from his old place as the bogey man of United States politics, and to that extent will promote a good understanding between the republic and the empire.—Toronto Telegram.

The laundrymen and laundresses of New York have declared war against Chinese, which they say, will end only in 1902, when congress passes a new law excluding the Mongolian. The candidates for office are buttonholed and made to place themselves on record as regards the Chinese question. A candidate who is non-committal will not get the vote of a landman or husband of a laundress—black or white. The rumor has gone forth that congress will not pass an exclusion act two years from now, when the present law expires. This would mean that new hordes of laundrymen would come in and threaten home industries.

## WHAT THE PAPERS SAY.

The Globe says: The return of the  
Laurier administration by a substantial  
majority, as expected, has happened.  
It required no prophetic vision to  
foresee the success of the Salisbury  
government, and McKinley and Laurier  
were nearly as assured. It had  
four advantages in its favor: Personal-  
ity of Laurier and his colleagues,  
their record, prosperity of the country,  
and mistakes and weakness of the  
opposition. In the last hours of the  
campaign they threw aside almost  
every other part of their  
ammunition and asked the  
people of Ontario to record their  
votes "against Tarte." We all know  
what this meant. It was not merely  
a personal attack on Tarte. The  
premier was struck at over Tarte's  
shoulders. The government has made a  
splendid record for itself in the last  
four years, but we may be sure it  
will not sit down with folded hands,  
contemplating its past achievements.  
The next parliamentary term ought  
to be a period of reforming energy and  
of progress in liberalism in the  
broadest sense. There is no doubt  
that the Dominion as a whole the  
government is supported by a very  
considerable majority of the Eng-  
lish speaking people. Ontario has done  
as it had a perfect right to do under  
free institutions. We think some of  
its people were mistaken and were  
carried away by passions raised in a  
most unscrupulous fashion. We be-  
lieve it will recognize that, and its  
opinion a few months hence will be  
very different from what it is to-  
day. Our concern is not of the  
government, which is strongly and  
quietly sustained, but we should very  
deeply regret the raising of a race  
quarrel and we hope the patriotism  
of Canada will prevent such a calam-  
ity.

The Mail says: The result of  
the election is the return of  
the Laurier government to power,  
somewhat reduced in strength. It  
seems probable the ministerial  
majority will stand in the neighborhood  
of forty-five, as against fifty-seven,  
when the house dissolved, but the  
force of the government, that is to  
say, the balance upon which it hangs,  
is drawn from Quebec. In other  
provinces the majority in the house  
is against it, and the popular vote is  
very heavily so. When laying out  
the campaign the ministers made  
what may be termed a "dead set"  
upon certain of the conservative  
leaders. They threw themselves  
especially against Tupper, and accom-  
plished his defeat, which will be but  
temporary. Fisher, who is feared and  
hated by every element, because of  
the marvellous ability with which he  
has exposed it in parliament, was  
marked for attack in a way (pecu-  
liar to the machine) and has met a  
reverse, of which, under the circum-  
stances, he has no reason to be  
ashamed. Hugh John Macdonald went  
forth to face Sifton and his horde  
of corruptionists. He was beaten,  
but nobody will believe Sifton won by  
the free choice of the people of Bran-  
don. Macdonald is retired for the pre-  
sent in Haldimand. Corrupt influences  
have run him out as we shall see  
later on. For the rest the govern-  
ment took even chances, but depend-  
ed chiefly upon its racial cry in Que-  
bec to pull it through. In other  
provinces it campaigned almost  
exclusively on racial lines. Racial  
and anti-British appeals reacted upon  
the government in the other provinces,  
as they might be expected to  
do, Ontario, it is gratifying to note,  
has also reacted them strongly, as it  
has also reacted the prevailing un-  
cleanness, boddling and the extrava-  
gance. Into the Ontario campaign  
Laurier entered with a majority of  
twelve at his back, and out of it he  
comes twenty-two behind.

## ENGLAND INTERESTED.

The elections in the United States  
and Canada occupied the attention  
of England throughout the week in  
an unprecedented extent. Of the two  
great contests, that between President  
McKinley and Wm. J. Bryan was the  
more closely watched. There is no  
concealing the fact that Mr. McKin-  
ley's re-election meets with the ut-  
most inauspicious approval of the press  
and public, while the foreign office ex-  
presses undisguised relief that it will  
not have to deal with a new set of  
diplomats in this critical state of  
affairs in the far east and in other  
parts of the world. Among the col-  
umns of comments appearing in the  
journals there is common to all an ex-  
pression of surprise at the return of  
power to the existing governments of  
Great Britain, the United States and  
Canada, and rightly or wrongly, the  
deduction is drawn that this reversal  
of the usual order of things is due to  
the wondrous spread of "Imperialist  
ideas" among English speaking peo-  
ple.

## CULTIVATED AREA OF TERRITORIES.

A map issued by the department of  
interior shows the total acreage of  
land under cultivation in Manitoba  
and the Northwest Territories. The  
total area of Manitoba is 41,002,240  
acres while its acreage under crop in  
1899 was 2,443,646, acres. The com-  
bined area of the Northwest Terri-  
tories, including Saskatchewan, As-  
siniboia, Athabasca and Alberta is  
343,100,800 acres, of which only 516,-  
826 acres are under cultivation. The  
area of the different districts named  
is:

Saskatchewan,	100,120,000
Assiniboia,	57,177,600
Alberta,	103,523,200
Athabasca,	153,280,000

The proportionate size of the culti-  
vated area is shown by a red square  
printed on the district specified which  
gives some idea of the comparatively  
trivial areas as yet under cultivation  
compared with the vast tracts yet un-  
cropped.

## THE NEW EMPIRE.

Mr. Chamberlain, in replying to the  
toast at Glasgow, said we had reached  
a turning point in our history, a critical  
time. We are at the parting of the  
ways. This last chapter has been closed.  
We are about to commence a new  
one, and it is not too much to say  
that the fortunes of the Empire and  
the destinies of our race depend upon  
its opening words. What are those  
words to be, and what is to be the  
heading of this new chapter which  
will commence in the twentieth cen-  
tury? I will dare to speak for my coun-  
trymen—I think that they have al-  
ready answered the question—I think  
this new chapter of our history will  
be rightly entitled, "The Unity of the  
Empire." (Hear, hear.) It is a great  
work that will make illustrious the be-  
ginning of the coming century. (Hear,  
hear.) It is only within the last few  
years that we have got free from  
millennian radiation of nominal and  
imperial obligations. (Cheers.) Now  
a great change has come over our peo-  
ple. I think myself that it came over  
the people before it came over our rulers.  
(Cheers.) And now it has come over  
both. We are all Imperialists—  
(hear, hear)—and we have at last  
abandoned the craven fear of being  
great, which was the disgrace, I can  
call it no less, of a previous age.  
(Cheers.)

To us, at any rate, the signs of our  
decadence are invisible. (Cheers.) It  
is not so for a fallen state as for an  
exhausted and effete civilization  
this I invoke the obligations of unity.  
No! Britannia still rules the sea.  
(Cheers.) And with humble excuses to  
the navy league, I think that she will  
continue to do so. (Laughter and  
cheers.) And even on land, where  
we were told, and where it was be-  
forehand certain, that the difficulties  
of an unprecedented war, under cir-  
cumstances absolutely novel, would  
reveal deficiencies which it is the  
business to correct—even on land, I  
say, we have done what no other na-  
tion in the world could have done. And  
then gentlemen, what is there else,  
the greatest feature of all in this event-  
ful modern history? Look at the ac-  
tion of the colonies, the self-govern-  
ing colonies, in the period of trouble  
and trial which came upon the mother-  
land! What sympathy they have  
shown! How graciously they have  
shown it! How universal has been the  
sentiment! In view of all this, is it  
too much to say in these last twelve  
months the Empire has been - born  
anew!

Gentlemen, this is the new situation.  
This is the new Imperialism which has  
been so grossly misrepresented, but  
which is nevertheless so well under-  
stood and which has received the over-  
whelming support of the majority of  
this country under reference to ordi-  
nary party lines of division. This is  
the feeling that you have recognized by  
your kindness and generosity to me  
to-night: and, gentlemen, it is full  
of promise for our descendants, it is full  
of force for us. I do not think that  
any fear now that we shall not have  
those great possessions, unimpaired  
and strengthened, as we re-  
ceived them from our ancestors; and  
I am sanguine enough to look forward  
to a future even greater than the  
present. I cannot but believe that  
when this progress has been made, in  
so short a time, in the future still  
greater progress will be made. I  
think I am not wrong in seeing in  
the federation of Canada and in the  
indissoluble union of the Common-  
wealth of Australia—(cheers)—a sign  
and example to our possessions in  
South Africa, and a foreshadowing  
of that greater federation, that federa-  
tion of kindred nations which will  
realize the dream of every patriot  
man and will so strengthen the foun-  
dation of our Empire that in the good  
providence of God it will continue long  
into the future to fulfill its mission—  
its destined mission—justice, civiliza-  
tion, and peace. (Long and long-con-  
tinued cheers.)

## CHANGE IN WHEAT GRADES.

The grain standards board met at  
Winnipeg for the continuation of the  
discussion of the advisability of reduc-  
ing the number of grades of Manitoba  
spring wheat. The following resolu-  
tions were passed and subsequently  
endorsed at an informal joint meet-  
ing of the board and the grain ex-  
change:

"That it is the opinion of this board  
that wheat would be best served by  
making the following changes in the

schedule of grades, viz: That the  
grades of No. 2 hard and No. 1 north-  
west be consolidated under the name of  
No. 1 northern, and having the pre-  
sent qualifications of No. 1 northern  
with no less than 60 per cent. of hard  
wheat.

"That the name of No. 2 northern be  
changed to that of No. 1 Manitoba  
spring; that grade having not less than  
45 per cent. of hard wheat, and weigh-  
ing not less than 58 pounds per bushel;  
and that any wheat not good enough  
to grade No. 1 Manitoba spring, be  
graded as No. 2 Manitoba spring, in the  
discretion of the inspectors."

In connection with grading dried  
wheat the following resolution was  
passed:

"That in cases where tough wheat  
has been dried, the inspector be in-  
structed to inspect out of terminal  
elevators wheat so dried on a clean  
certificate when he considers it equal  
to the standard of such grades. This  
is to apply to commercial grades only."

The changes, if carried out, will  
make Manitoba grading almost equal  
to that of Duluth. The handling of  
the wheat from here and for export  
to the east, it is believed, would be  
greatly benefited by the change,  
though Ontario millers were at first  
opposed to the change. It is under-  
stood that in fixing a grade of No. 2  
Manitoba spring wheat they are better  
satisfied by what was at first con-  
templated in having a grade of No. 2  
northern.

The exchange standards has adjourned  
till next year. Several of the mem-  
bers left for their various homes  
Saturday.

## THE CAMPAIGN IN QUEBEC.

Hon. Mr. Bernier, minister of in-  
land revenue, returned to the capital  
Friday - morning. He has no hesi-  
tation in speaking of the outcome  
of the contest in his own pro-  
vince, and has a word of two of in-  
formation for the people of Ontario  
on the methods by which the election  
was won, and in reply to the charges  
of the conservative press in On-  
tario. "After having spoken at some-  
thing over seventy meetings between  
Montreal and Rimouski, I can fairly  
claim to be in a position to speak  
with knowledge of the issues upon  
which the vote was taken in the pro-  
vince of Quebec, and this much it is  
just as well that the people of On-  
tario should know, as they very out-  
set, that the main plank in the con-  
servative campaign's platform was  
to stir up dissatisfaction with the  
settlement of the Manitoba school  
question. The truth is that from  
Mr. Taiton, who expected me this,  
to be filling a ministerial chair,  
right down to the humblest of their  
stump orators, the first theme in  
every one of their addresses was the  
school question, the alleged settle-  
ment of which they told the public  
did not suit the pope, the clergy nor  
the Catholics of Manitoba. How this  
boomerang has recoiled to their own  
destruction we have clearly seen.  
But what was the other feature  
in condemnation of the government's  
policy? Nothing other than abuse  
of Sir Wilfrid Laurier and his col-  
leagues for the dispatch of Canadian  
troops to South Africa. I have heard  
this appeal from conservative speak-  
ers myself. They urged the expense  
saddled upon the people of Canada in  
this connection, and no hesita-  
tion in stretching the figure up to  
five million of dollars. They dwell upon  
the precedent it would form for  
future action. This is the kind of  
thing we have had to stand, and  
these are the issues on which the re-  
sult was based. The English-speaking  
people of the sister provinces may not  
know this, and it is well that they  
should. The conservative party in On-  
tario have been preaching that the cry  
that won for the liberals in Quebec  
was Sir Wilfrid Laurier, the French  
Canadian. But the charge is a pure  
lie. On scores of platforms I have  
said, 'Do not vote for Sir Wilfrid be-  
cause he is of your race and religion,  
but because he is the best prime  
minister this country has ever  
known,' and what I said myself was  
said by hundreds of liberal speakers  
everywhere. 'Nothing could be  
more unfair than to urge motives of  
this nature against my fellow coun-  
trymen of Quebec. They are proud  
of Sir Wilfrid, as we are all proud,  
but perhaps as good an answer as  
any to the charge of race intolerance  
is the fact that among the mem-  
bers elected to serve in the new  
parliament from Quebec are sixteen  
English-speaking Protestants."

Potatoes—New, \$17 per ton.

The next Dominion census will be  
taken within a year. A redistribution  
of the number of seats allotted to  
each province must follow. What  
population the west will be found to  
have it is difficult to say. At not ex-  
travagant estimate might place it at  
600,000—that is, 300,000 for Manitoba,  
170,000 for the Territories, and 125,-  
000 for British Columbia. On that  
basis there would be at least 30 mem-  
bers of the House of Commons elected  
west of the Rocky Mountains, or about half  
as many again as Nova Scotia—enough  
to make a difference of sixty on a divi-  
sion.—Winnipeg Telegram.

## ONTARIO.

Ontario and Quebec are not going to smash confederation into a fortuitous concourse of atoms by reason of the proceedings yesterday.

Quebec has the right to go unanimously liberal, and Ontario has the right to go unanimously Tory.

Whether the province will stay apart or come together in politics is a question which their people can decide at this point.

The question of staying in confederation and in the British Empire is already decided. History will do Wilfrid Laurier the justice of admitting that, on the whole, he acted wisely and well in the South African crisis. The French-Canadians generally behaved well also.

When French-Canadian domination is embodied in acts like the remedial bill, then French-Canadian domination will be a condition which must agitate the people. When French-Canadian domination is merely embodied in election returns, French-Canadian domination is a theory to agitate the politicians, and cannot interfere with the immediate business of building up Canada now and forever one and indivisible.—Toronto Telegram.

## WHAT BRYAN SAYS.

"The result was a surprise to me, and the magnitude of the republican victory was a surprise to our opponents as well as to those who voted our ticket. It is impossible to analyze the returns, until they are complete, but speaking generally we have gained in the large cities and have lost in the smaller cities and country.

The republicans were able to secure tickets or passes for all their voters who were away from home and this gave them considerable advantage. We have no way of knowing at this time how much money was spent in the purchase of votes and in colonization. But while this would account for some of the republican gains they could not account for the widespread increase in the republican vote. The prosperity argument was probably the most potent one used by the republicans. They compared present conditions with the rank days of '93 to '96, and this argument had weight with those who did not stop to consider the reasons for the change. The appeal 'stand by the president while the war is on' had a great deal of influence among those who did not realize that a war against a doctrine of self-government in the Philippines must react upon us in this country. We have made an honest fight upon an honest platform, and have done our duty as well, we have nothing to regret. We are defeated but not discouraged. The fight must go on. I am sure that the republican policies will be repudiated by the people when the tendency of these policies is fully understood. The contest between plutocracy and democracy cannot end until one or the other is completely triumphant."

## ENGLISH OPINION OF LAURIER.

The Pall Mall Gazette (London) says: "Sir Wilfrid Laurier is the living embodiment of the spirit required in Canada. It looks as if he might have as long a spell of power as Sir John Macdonald. Not only is this French-Canadian (but enthusiastic British imperialist statesman) one of the most inspiring and most useful personalities in the Empire, but the election attempts to turn rape feeling to his disadvantage have deserved the severe defeat."

## FALL WHEAT.

F. Lightfoot, hide and wool dealer, of Winnipeg, has returned from a trip through the ranching districts of Southern Alberta and Western Saskatchewan. About Pincher Creek, and in the vicinity of Cardston, the settlers have been growing good crops. C. Kettles, of Pincher Creek, told Mr. Lightfoot that he had grown fall wheat for five years in succession and always had a good crop. Some of the Cardston settlers had also secured good crops of winter wheat, some of which had been purchased by the Calgary flour mill.

## FROM A LATE EDMONTONIAN.

W. S. Cook writing to the Bulletin from South Omaha, on Nov. 7th, says: "I observe that this is your election day while it is our day following, and 4 days of rejoicing over a great victory that says good will and prosperity for ourselves and our neighbors. We have a dangerous element in this country that were not satisfied because the government did not interfere with England in the South African affair, but the better judgment was that while we were in war ourselves we should appreciate the neutrality exhibited by England during our struggle with Spain, and it was simply fair to reciprocate by remaining neutral. Mr. Bryan's campaign policy was anti-imperialism and anti-militarism, two purely false issues. Four years ago it was the silver question and all the false predictions that he made of the calamities that would befall our people not one of them came true, and this time the people failed to have confidence in him and in consequence returned McKinley with a flattering majority. One of the great crises was that this country would become a monarchy as England is. This cry was also false for the American people do not want a government different from that prevailing at the present time, and now we believe that the political agitations have been tremendous. Our Philippine trouble will soon be ended that we as a nation may pass on to a standard paper, higher and in every respect more elevating. I have a British flag that I brought from Alberta and tomorrow when our returns are complete I will entwine it with the Stars and Stripes on the same pole at my residence. We feel sure now of a republican congress and senate so we feel safe that we will not be, through regulation of our treaties, plunged into dispute and possibly war with our neighbors on the north, and we hope that this day Mr. Oliver will succeed and be returned for another term, the announcement of which fact you will have ere this reaches you."

## MR. FOSTER TALKS.

Though his party was so signally defeated at the polls, Mr. Foster still retains the power of invective, as witness the following. Interviewed at St. John, N. B., he said: "We have been defeated in New Brunswick. Too much Blairism and Tarteism; but we shall send for good to parliament to keep alive the honorable traditions of the conservative party in this province. Do not imagine we are discouraged. Not a bit of it. Laurierism is a disease and like measles it must have its run, but the body political will soon return to its condition. Ontario's condemnation is the grim specter which haunts the feast, even now a ghastly reminder of what ultimately is in store for the pledge breakers and sham patriots. Many most excellent men have been added to the ranks of our militant parliamentary who will be ready to meet the victors at Ottawa. Let us draw our ranks close and begin this very day a contest to combat corrupt principles consistent in action at Ottawa."

## NEW FORT WILLIAM OIL TANKS.

The Fort William Chronicle gives a good description of the new oil tanks, which the Imperial Oil Company have in course of erection at that town, in the course of which it says: "What was a few days ago a dreary waste of swamp land, inhabited only by the wild duck and other aquatic birds, is now transformed into a very busy scene of human activity. Large gangs of carpenters, boilermakers and riveters, besides laborers, are busily employed in pushing to completion the beginning of an industry, which will, be of untold benefit to the two towns and the surrounding country. Already the company has completed, or nearly so, twelve iron tanks each capable of holding in the neighborhood of ten thousand barrels of oil, this means 500 car loads of oil. Other tanks are to be built, but as the season is getting advanced it is doubtful if they will be built this fall. A large and commodious dock has been built on which is erected an immense freight shed, almost as extensive as the freight shed of the C. P. R. Other buildings such as offices, stables, etc., have been erected at once. The C. P. R. has laid a track and wagon road down the river side to the works. The first large with a full cargo of oil, consisting of 13,800 barrels, arrived in the river on Wednesday."

## ELECTION DAY IN MACLEOD.

The Gazette says: "The first reports received showed Mr. Bennett to be ahead but as the evening advanced his majority steadily decreased until it dwindled away altogether, then Mr. Oliver's majority began steadily to mount until it was seen that he was elected. As the returns were read out the passions of each party indulged in tumultuous cheering but towards the end of the proceedings it must be admitted the liberals had the monopoly of the enthusiasm. Yesterday when it was seen that both the government and Oliver had been returned to govern the local liberals headed by the band had a procession round town ending up at their committee rooms."

—F. M. Medhurst, at one time station agent at Wetaskiwin, and later one of the proprietors of the Free Lance, of this place, is under arrest at Nelson. Medhurst has been for some time station agent at Cranbrook, where he has had considerable trouble with the company, having been arrested twice before. The case will be heard at Nelson.

## WHITFORD.

Whitford gave Oliver a majority of 19. The total vote polled was 51. The unbiased conscientious vote would have given him a majority of 51. Polling day passed quietly and pleasantly. These Hall very kindly loaned his residence adjoining the polling booth as a joint "club" house for the day, for which kindness both parties extend thanks. Mr. Hall put up a free dinner with "Oliver" Nillock as cook. After dinner speeches and toasts were made by the scores in an informal way and Mr. Oliver's strongest opponent said in the course of his speech "Mr. Oliver is my best friend." But this is no news for we have never yet heard any other man say differently. Alberta as a Dominion constituency says this too in figures the meaning of which Mr. R. B. Bennett could in his heading with figures cannot twist. What does this mean (1,300)? It means much when we know it is a man's majority for comparatively few men ever head the poll with four figures. To Mr. Oliver it means better than a quick acclamation would have meant, it means that Alberta takes him on his record. To the Dominion of Canada it means that Mr. Oliver goes to Ottawa on the same liberal ticket as he went in 1896 and that he reserves the right, a just right, which too few of our parliamentarians have the courage to reserve, of independence rather than servile submission when the fair interests of his constituency are at stake. To Mr. Bennett and the great conservative party which he represents or desired to represent what does it mean? When we allow ourselves to reflect on his campaign speech at Whitford charity counsels us to refrain from saying all it possibly means to him, Mr. Bennett we believe is a popular young advocate of the city of Calgary and the reverse to him (outstripping us, it does the reverse to Mr. Cochrane in 1896) may possibly mean a blessing dislaid at the hand of providence dealt out by the local agency of the ballot as a lesson imparting wisdom and judgment in larger measure to his youthful years. To the liberal party it means continue wise in particular independence and you will be a ruling unit of united individual independence. To the enthusiastic street urchins who were in sympathy with Oliver it means perhaps no more than a superficial and spontaneous "Hurrah for Oliver."

John Dorwick came home to vote. He returns to Edmonton to-day and will explain to the Oliver club there how he really spoiled his ballot. He was the first voter that voted.

An Oliver dance and supper at the residence of Andrew Whitford was the closing scene of Nov. 7th.

Mr. Suter of Fort Saskatchewan was the only gentleman from a distance who appeared on polling day in behalf of Mr. Bennett. Mr. Suter, whilst anxious to do his best for Mr. Bennett, was gentlemanly and courteous to all. He is a fairly expert violinist and we are glad that we met him.

## TOWN COUNCIL.

The council met Tuesday, the Mayor in the chair. Present: Councilors Goldbridge, Lee, McLeod, Jackson and Blouwey, also solicitor N. D. Beck.

Ernest Grierson applied for position of market clerk. The application was laid on the table with another from Mr. Pelletier to the same effect.

Application of H. Dunn for position of jailer in the jail to be established here was also laid on the table.

Alex. Taylor manager of the telephone company, wrote complaining of the company's assessment on the ground that it was \$1,000 too high. The assessment notice had not been delivered at the secretary-treasurer's office and in consequence they were not in a position to appeal, having had no notice. The communication was referred to the finance committee.

T. H. Jones complained of the height of the sidewalk in front of his residence, and asked that it be lowered. Referred to board of works.

G. W. Wolf & Sons advised that they had purchased town's debentures for \$36,011.

Chief of police asked that the police be supplied with winter pea jackets. Request was referred to license and police committee with power to act.

Councilor Brown reported that the market scales were in position and ready for use.

Offers for a site for the proposed court house and goal were received from H. O. Taylor for the Methodist church, T. A. Stephens and P. Heimick. After discussion the Edmonton bar association were asked to co-operate with the hall and market committee in the selection of a site.

The draft of a proposed agreement between G. E. Bernard, of Victoria, and the town for the purpose of bringing an engineer here to make plans and estimates for a proposed waterworks system was discussed at length. The agreement provided that Mr. Bernard is to submit to the council the name of a competent engineer who will visit the town and make plans and estimates. Plan to be based on a population of 10,000 and to contemplate an increase. A copy of the plan to be furnished to the town whether an agreement is arrived at or not. In the event of no agreement being reached the town agrees to reimburse the said engineer for his services to an extent not greater than \$1,000. After much discussion it was decided to lay the matter over for consideration at a special meeting to be held Friday.

The following accounts were passed: Pay sheet, grading 2nd street, \$5.00; Pay sheet, street labor, 67.75; Pay sheet, special constables, 8.00; D. McCallum, local improvements, 285.40; Jas. McDonald, weigh scales, 65.99; Ross Bros., weight scales, 163.20; Kelly & Beals, blacksmithing, \$9.25; Gariepy & Brosseau, 2.52; E. M. Hoover, draying, 2.00; Stovel & Strang, hardware, 7.25; C. P. R. Telegraph, telegram, 1.00; Bellamy Co., wheelbarrow, 6.00. The meeting then adjourned.

## FRAUDULENT SELLING OF SCRIP.

The means adopted by some of the more unscrupulous recipients of half breed scrip by which to raise money out of their scrip are highly dishonest. A scrip is generally purchased from the half-breed before he has actually received it. He sells for a certain amount, receives so much down, and gives a power of attorney to the purchaser. This plan has unlimited possibilities. The half-breed can sell the same scrip to several different people being limited only to the number of victims he can find. The commission of course, do all in their power to protect a legitimate purchaser and prevent fraudulent dealing by the half-breed. Notices are now posted up giving notice of the scrip that is to be given out that day. Thus all holders of powers of attorney are enabled to present them and, so far as possible, protect themselves. A case in point occurred last week when Patrick Delorme, who was entitled to a scrip, sold it in advance to four different people. About the highest value of a land scrip is \$150. Delorme by going to different people got over \$300 in all. When the condition of affairs was discovered Delorme was arrested by the mounted police on information charging him with fraud. He was confined in the barracks here for several days when the matter was settled by Delorme being brought up under police custody to receive his scrip from the commissioners. The scrip was sold and the amount received applied to reimburse the different purchasers, the difference being made up by relatives of Delorme. The charge was then dropped.

## MANITOBA WHEAT STOCKS.

There are 1,000,000 bushels of wheat in store at Port William on Nov. 2. Receipts for the week were 333,700 bushels, and shipments were 190,800 bushels, compared with receipts of 693,000 and shipments of 648,000 bushels for the corresponding week last year. A year ago stocks in store at Port William were 1,223,000 bushels and 800,000 bushels two years ago. Stocks in store at Keweenaw, Winnipeg and interior points were estimated approximately at 2,850,000 bushels, compared with 2,250,000 bushels a year ago, and 3,000,000 bushels two years ago.

## DEATHS.

Dowler—At Strathcona, Alta., on Monday, Nov. 12th, 1900, John Dowler, Aged 76 years.

## REPORTED DEAD IN THE NORTH.

The Catholic Sentinel, of Chippewa Falls, Wisconsin, chronicles the death of John McDonald, formerly a resident of Chippewa County, and says: Mr. McDonald left Edmonton in April, 1898, with a party of three, to prospect. They were supplied with money and provisions and expected to make a long journey. They prospected on the Peace river for some time and not being successful, packed across country to the Liard river, where the search for the yellow metal was continued. Here the party separated, three of the members returning home. McDonald and a man named John P. Christie, a native of Mexville, Glenegary Co., Ont., continued on the journey 100 miles north of the Liard to the Finlay river. In August they met a party on the way to Fort Graham. The two were fatigued from the long journey. Christie died and in company with another man named McDonald whom John McDonald, the latter met continued the journey in the direction of Fort Graham. That place was never reached. When last seen the two McDonalds were travelling in an old boat which had been given them by a party they met at Summit lake, the head waters of the Finlay river. The fate of the two men is unknown. Indians tell of a dangerous rapid in the Finlay river through which no man has passed alive, and it is the general supposition of John McDonald's friends that they were lost in this rapid.

## FINAL WORD OF SIR CHARLES.

Sir Charles Tupper arrived in Montreal on the 6th. (There were letters and telegrams from every part of the Dominion expressive of sympathy and good will and amongst them there were messages from six provinces from sitting members, offering to resign their seats and promising to work to elect Sir Charles. When asked what his decision was to be, Sir Charles was firm in the declaration that under no circumstances, even if offered a seat by acclamation, would he consent to re-enter political life.

"I am deeply moved by these expressions of good will," said Sir Charles, as he showed the budget of telegrams, "but my decision is final. For four years I have worked in season and out of season for the good of the party to the best of my ability. I have shortened my life by the privations incident to campaign work. My friends and colleagues in the House are good enough to say very kind things about me and that work. They are too considerate, but I thank them cordially for the expressions of good will. In the quiet of my home life I will not be an indifferent spectator of public events. I will take the greatest pleasure in seeing the conservative party, now united to a man, taking its place in the House and before the country waging their battles by younger men, full of vigor, hope, endurance, and having behind them a good cause, the securing for the people of Canada wise legislation, righteous laws and fair play to all creeds and nationalities." (As I step out of public life I am proud to be able to say that I never used nor countenanced the using of any bad one policy in each and all the provinces. I defy any man to say that I have ever reflected upon any nationality or done other than help to cement the bond of union between all the races as Canadians with a common heritage and a common future. God forbid that there should be anything but peace and good will throughout the Dominion. There is a great future for the conservative party, and its future has not at any time in four years looked as bright as to-day. Relief from public life is a boon, the greatest I have enjoyed for years. Remember my age. The party would not listen to this idea of my resigning. I could not insist upon doing so against a united protest had not the good people of Cape Breton recently have given me the opportunity. I made no great effort to hold Cape Breton, for I felt my duty to my party was to be in the fight to help my supporters rather than to concentrate my efforts upon one seat. I was in the county only four days. I have nothing but what is pleasant to say of the electors of Cape Breton, and at this moment, as I leave the arena, my heart goes out to all Canada in the hope that peace and prosperity may abound."

## MANITOBA WEATHER AND CROP.

The weather took a colder turn early in the week. The first snow of the season in the eastern portions of the grain belt, came on the 9th. At Winnipeg there was enough to cover the ground, but it was heavier west. Threshing is about finished in most parts of Manitoba, but in some late sections and in the Territories there is considerable threshing to do yet.—Commercial.

It has been announced that the Ontario government intend to give to each member of the Canadian contingent who went from this province a grant of 100 acres of land, free for ten years from settlers' responsibilities as to taxes, etc. In this regard the Toronto Telegram remarks: This is very well. What is not well, though, is the suggestion made in certain quarters that such an act on the part of the government is simply a political bribe. The insinuation is in itself contemptible, but Canadians who fought and bled for their country, are made of better stuff than to be influenced in their votes by the grant of a quarter section of land.

## IN RHYME'S KNOT.

The handsome residence of Mr. and Mrs. Philip Heiminek, on the corner of McDougall and Rice streets, was the scene of much festivity on Wednesday evening, the occasion being the marriage of their eldest daughter, Margaret Elizabeth, to William H. Hullock, formerly of the N. W. M. P., Edmonton, but now of the constabulary of Strathcona. Mr. Heiminek's spacious brick residence was thrown open to the guests, a large number of whom were present to participate in the festivities and extend their congratulations and good wishes to the young couple. The interesting ceremony was performed by Rev. D. G. McQueen, the bridesmaid being Miss Mary Heiminek, sister of the bride, and the groomsmen Herbert Cardinall. The bride was becomingly attired in a lavender colored costume, handsomely trimmed with white and pearl corded silk. The bridesmaid was attired in a fawn colored dress trimmed with lace. On the conclusion of the marriage ceremony, which took place in the commodious library of the family residence, the happy couple, with the assembled guests, adjourned to the dining and drawing rooms which, separated by an arch, had been thrown into one, and where an excellent cold collation was served. Mr. and Mrs. Heiminek spared no pains to make the event a thoroughly happy one, and nothing was left undone to contribute to the pleasure of their guests. In this they were eminently successful, the occasion being one of uninterrupted merriment and pleasure. The evening, on the conclusion of the repast, was passed most pleasantly with music, vocal and instrumental, until a late hour when the guests dispersed and the young couple left for their future home on the south side amid many hearty good wishes from their assembled friends.

The bride's presents were numerous and handsome, including table silverware and china sets, a handsome marble mantle clock, stand lamps and many other useful and costly tokens of the good will of her many friends.

Among those present were, in addition to the bride and groom and immediate relatives: Mr. and Mrs. McQueen, Mr. and Mrs. Pickard, Mr. and Mrs. Hullock, Mrs. and Miss Russell, Miss D. Ross and Messrs. Cardinall, Ross, Macdonald and Matthews.

Mr. and Mrs. Heiminek are among the earliest settlers of the town, having come here from Winnipeg when Edmonton was in its infancy, and are remembered by many old-timers and known to numerous new-comers for kindly qualities of heart and friendship to the stranger in a strange land.

## BAZAAR.

The bazaar held in Robertson Hall by the Catholic ladies of Edmonton in aid of St. Joseph's church, was brought to a very successful conclusion last night. For the past three days and evenings the bazaar has been doing big business to crowded houses, the tables of fancy work and novelties as well as the candy and oyster stands, drawing many customers who provided a ready market for the articles and delicacies displayed. Supper was served each evening and on Tuesday night the proceedings were enlivened by the band. The tables on which the articles for sale were attractively displayed were set around the hall, which had been prettily draped for the occasion. Mrs. Beck and Mrs. Larue had charge of the fancy work table, and other stands were presided over by Mrs. Silver, Mrs. Leclerc, Mrs. Lechman, Mrs. Gallagher, Mrs. Roy, Mrs. McNamara, Mrs. Keegan, Mrs. Hewitt, and Misses McAllister, Degagne, Dupliss, and Lachute, assisted by many others. The fish pond and wheel of fortune had enthusiastic votaries. Last evening the grand raffle was held, the fortunate winners being: 1st, handsome cushion, Mrs. M. J. Savage; 2nd, parlor lamp, Mrs. Strimble, Portage la Prairie; 3rd, gold watch, Father Remas, St. Albert; 4th, lace curtains, J. Leonard, St. Albert; 5th, \$5 gold piece, John Milnina, St. Albert; 6th, wicker rocking chair, Mrs. Ando Toledo, Ohio; 7th, half dozen silver coffee spoons, Hon. Walter Clifford, Austin, Minn.; 8th, berry spoon, Joseph Wont, Toledo, Ohio; H. W. Muller was the fortunate winner of a handsome fancy lamp shade. The bazaar throughout was most successful. The exact amount realized has not yet been ascertained.

Major Walker left for Fort Saskatchewan early yesterday, to commence the taking of evidence and will be there the balance of the week. The remainder of the commission leave to-day. ## WOMAN'S HOSPITAL AID.

The postponed meeting of the Woman's Hospital Aid society was held at the residence of Mrs. John Ross on Monday last. It was decided at that meeting to hold a ball on New Year's eve in Robertson Hall. Hardisty, five pillows; Mr. Goodall, plants; Mrs. Jellett and Miss Edmiston, books. On Nov. 23rd a cantata "Under the Palms" will be put on in Robertson Hall by Mr. Ruse and assistants, proceeds to be donated to the hospital.

The figures would not, of course, include the arrivals who came in by the Soo line, who form the greater proportion of the settlers coming into Alberta.

## SUPREME COURT JUDGMENT.

Mr. Justice Scott has handed down judgment in the action of Geo. V. Dorland against Jacob Broder for libel. This was an action for damages for letters written to the trustees of the Horse Hill school district by defendant charging the plaintiff with being a "forger" and "liar."

His lordship found that these charges were not justified, that the defendant was actuated by malice against the plaintiff by reason of the latter having sent his child from school when suffering from the whooping cough and that upon the evidence the plaintiff was entitled to recover.

In disposing of the matter his lordship at the close of an exhaustive judgment, says: "I give judgment for the plaintiff for the costs of the action in the higher scale. I have found that the damages at a small amount because plaintiff's object in bringing the action is obtained by the re-statement of the charges made against him by the defendant and the costs which the latter will doubtless be called upon to pay will amount to a considerable sum."

Short & Cross, advocates for plaintiff; C. de W. MacDonald, advocate, for defendant.

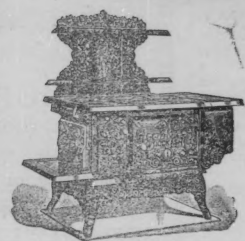

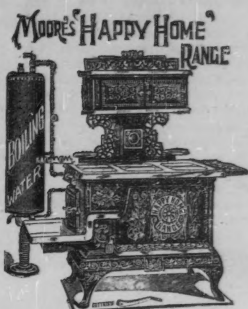

## THE STRATHCONAS.

Captain Ketchen, who was in command of a Regina troop of the Strathcona Horse in South Africa, returned to Regina on Tuesday. The Regina troop under his command took a very active part in the campaign with Gen. Buller, acting as escort and advance guard upon several important occasions. The Regina and Moosomin troops were detailed to escort General Buller from Grading Stadt to Heidelberg and at the end of the journey were highly praised for their appearance and excellent scouting. On returning to Grading Stadt the Regina troop was posted at Twickenbosch river as an escort to the engineers repairing the bridge, where they had several skirmishes and where Capt. Ketchen was severely wounded, from the effects of which he was in the hospital at Stratherton and was finally
